

# Parents & Carers: How we need you to help us re-open school safely

No school if there are ANY symptoms in your home

No expectation for school uniform:  
Clean clothes every day

Wash school clothes after one day of use

No personal belongings or books to travel to / from school

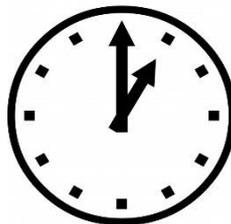

Own water bottle brought into school daily and filled at home. No access to water in school

Thoroughly wash water bottle every day

Walk or Cycle:  
This will avoid creating crowds trying to park cars near school.

Be on time:  
This will reduce risk by keeping your child from mixing with other groups

Let older children walk the last part of the journey alone to avoid creating crowds near school.

Parents are not allowed inside school.  
This stops contamination and will avoid creating crowds inside.

Obey the special signs and markings around school.  
Doing this will keep all families safe.

Keep a safe distance from other families whilst waiting at the start and end of the school day.

## How we are keeping your child safe in school

Your child will be in a bubble, not a class.

Each bubble has a maximum of 9 children and 2 adults depending on the size of room they are based in.

Your child's bubble will not mix with children from any other bubble at all during school hours. This means that if there is an infection in one bubble, all other bubbles are protected.

Your child's bubble will have:

- It's own start time
- It's own teacher or teaching assistant
- It's own toilets
- It's own handwashing facilities and hand sanitizer
- It's own cleaning products
- It's own home time

In their bubble, your child will have:

- Their own table and chair 2m away from the nearest child and supervising adult
- Their own books, stationery and resources

School will not be open Friday afternoon. This is safest because:

- Teachers are only allowed to work with children 90% of each week. By not opening Friday afternoon, we do not need "PPA Teachers" who would have to go from bubble to bubble, covering teachers but potentially spreading infections as they go.

We will be keeping your child's bubble as clean as possible by:

- Expecting all parents to do their bit by following the rules
- Emptying bins for tissues regularly throughout the day
- Cleaning surfaces regularly throughout the day
- Insisting on handwashing regularly throughout the day
- Undertaking a deeper clean at the end of each session (morning and afternoon)
- Not allowing staff or children from other bubbles into your child's bubble

-

**This will only work if you keep your child safe when they are not at school. Children who go out to play with other children not in their bubble at school will be a high risk to their bubble when they come back to school.**
